

## FAQ for Fee Increase (with effect from 1 April 2026)

### Fee Increase

#### **Q1: Why is there an increase in monthly golfing subscription fees?**

A1: We have strived to hold off any fee increment for as long as possible. This is in line with OCC's objective of making OCC accessible and affordable to all workers. Unfortunately, fee revision has become necessary as we are unable to fully absorb the impact of rising costs, such as manpower, utilities and maintenance, amongst others. We have also continually invest in maintaining and upgrading our golf courses and facilities, to ensure a quality experience for members. Since the last subscription fee increase in April 2023, other country clubs have substantially increased their monthly subscription fee. With the monthly subscription fee increase to \$185.30 (inclusive GST) per month, OCC will still be one of the lowest for golf subscription fees amongst the clubs in Singapore and we do not charge a minimum quarterly F&B charge.

A2: Buggy fees are also being reviewed to reflect the increase in operation costs in buggy maintenance. OCC continue to have one of the newest fleet of buggies amongst the country clubs. We are also upgrading all golf buggies with lithium batteries, which will provide longer battery life and support fast charging. This upgrade will enhance the overall golfing experience for all and is expected to be completed by May 2026.
